ANDRA RECORD SETTING PROCEDURE (Section 5.16, ANDRA Competition Regulations)

- ANDRA National Records for elapsed time or terminal speed can be set or broken at any meeting or within any eliminator designated an ANDRA Championship event, however T/F and F/C National Records may be set at any National event, during bona-fide qualifying or racing. Other Group One categories may set ANDRA National Records at any time during the meeting.
- In Group Two any runs bettering the national record during eliminations and a maximum of one run from qualifying will be used to calculate the new record. Drivers or riders must present for fuel/weight checks after any relevant run.
- Failure to report to the ANDRA Stewards for post race or spot checks is considered an admission of illegality and may result in disqualification from the event.
- Group Three categories may include one qualifying run in each record setting procedure, where that performance is brought to the attention of the ANDRA Officials prior to eliminations.
- In all cases, to claim an ANDRA National Record the competitor must bring the performance to the attention of the relevant ANDRA Officials at that event. Records will only be allowed where the Stewards certify that;
 - a) wind assistance from behind is less than 16kph/10mph;
 - b) fuel and weight are correct immediately after the record run and capacity, where applicable, is certified after the vehicle's last run in competition. Refer 5.3 / 5.4.
 - c) the potential new record is backed up with another performance of within one percent of the new mark (best performance) at the same event. In the event that two runs exceed the existing record but are not within one percent of each other, the quicker time or faster speed will be acceptable as the backup for the slower time or speed, which will then stand as the new record.
 - d) the person awarded the ANDRA National Record is in possession of a permanent ANDRA Licence.
- If two contestants tie for the elapsed time record to the thousandth of a second at the same event, the tiebreaker will be the fastest speed reading for the run that established the record.
- In the event a tie still exists, the contestant accomplishing the record run earlier in the event will be awarded the record.
- If the record is tied at a later race, the record will stay with the contestant who set it first. Similarly, if two contestants tie for the speed mark, the tie-breaker will be the quickest elapsed time on the run that established the new national record.
- Provided all previous requirements are met, ANDRA National Record certificates will be forwarded to the successful competitor at their home address.
